

APPLICATION FOR A SINGLE PHASE PREPAID METER

Dear Owner,

You have the option of converting to prepaid electricity metering for your convenience. Please note, this facility is only available to complexes where metering manages only the electricity and no other utility.

The cost of a single phase prepaid meter is **R1 207.50 (VAT incl.)** which includes installation.

Please complete the application form and fax to our office for attention, together with the proof of payment and a clear copy of the owner's ID

Alternatively, you may send the application form and copy of the owner's ID to clientservicespta@pecgroup.co.za

When making payment, please ensure to use the reference number on the invoice which will be issued upon receipt of your application form

TERMS & CONDITIONS:

- The above mentioned cost may be amended from time to time due to individual circumstances or annual increases.
- After proof of payment has been received, the meter should be installed within 10 working days, taking into consideration logistical constraints
- Should you wish an invoice to be made out to a company, please provide a VAT number and company letterhead.
- A minimum call-out fee of R702.00 (VAT Incl.) will be levied should the appointment not be adhered to. The meter will only be installed once confirmation of the payment has been received.
- The owner of the property will at all times remain liable for the electricity usage.
- Tampering with any electrical equipment or electricity theft are criminal offences. Legal action will be taken against the owner of the property where any PEC Utility Management equipment has been tampered with, and when PEC can supply proof that tenants do not purchase electricity
- PEC Utility Management will disconnect the electricity supply without prior notice where tampering with the service connection, equipment and/or supply mains has occurred.
